

Program Oversight

- We provide an intensive tri-level quality assurance process completed by Support Service Coordinators, Program Directors and our full time Quality Assurance Specialist.
- In addition to monthly staff meetings, VBH holds quarterly, all-staff meetings to provide specific training on policies, procedures, and regulations, as well as continuing education on developmental disabilities, mental health, sex offenders, behaviors, documentation and more.
- Treatment outcomes measured via the OACCA Outcomes Data Project
- ViaQuest is CARF accredited and ODMH certified to provide treatment services. Our masters level clinicians offer full diagnostic assessment, personalized individual and group therapy, and case management for individuals with mental health needs.
- Skill Development measured via the Casey Life Skills Assessment
- Incident Report analysis tracking and measuring of target behaviors

Discharge Criteria

Discharge from the VBH Independent Living program generally takes place within 3 to 6 months after tapering staff to less than 8 hours / week.

DESTINATION INDEPENDENT LIVING

ViaQuest Behavioral Health (VBH) offers Independent Living services for individuals with mental retardation and/or mental illness. Many individuals may also have a history of aggression, offending and/or failed placements. Individuals rent their own apartments, and have all utilities for the apartment in their own name. Individuals accepted into the program must have the safety skills to be able to work up to be in their home without staffing for a minimum of 8 hours per day. Our Independent Living program is designed to work with local agencies to establish unique environments to meet the need of the individual in a community-based setting. By linking individuals to the surrounding community, we allow individuals to interact in a comfortable and familiar environment, including contact with churches, employers, businesses and physicians.

- ViaQuest Behavioral Health Independent Living Program provides:
- Most permissive of the three program type options (more permissive than Transitional Living and Group Homes)
 - Home staffed per individual contract
 - Individualized schedule and program activities
 - Psychiatric and Medication Management Services
 - Nursing services are available
 - Programming focus on supporting individuals through the emancipation process
 - Services can also be arranged to meet specific staffing needs of more high-risk individuals
 - Assistance with finances
